

HOME LEARNING

Year; 3

Date; 6.11.20

SPELLING

This week's spellings are;

gym
mystery
lyrics
symbol
syrup
typical
myth
pyramid

Reading ROCKS

Please read at home every day for 5 – 10 minutes.

Please practise your times tables every day for 5 – 10 minutes. Focusing on 2, 5 and 10.

In science we are looking at forces. We have been learning that a force is needed to make something start moving, this might be by pushing, pulling or twisting.

Your task for this week is to look around your home and find at least 6 objects and describe how they are moved. Are they pushed, pulled or twisted? For example, a door handle is twisted, a kitchen cupboard door is pulled and a football is kicked. You can present your findings in a variety of ways such as drawing pictures, writing a description or videoing yourself explaining.
